

ROUPON

USTOMERS:

Welcome NEW Groupon Customers!! We are thrilled that you've decided to enroll in a 'sampler' membership of 5 classes for an incredible price. We are so confident that you'll see the incredible benefits that only Kindermusik has to offer your child that we are offering you the opportunity to 'upgrade' your membership anytime during your 5 weeks, based on availability of class schedule. So the earlier that you upgrade, the better the guarantee that the class time/day/location will be available. Also, keep in mind that the children who attend regular long-term sessions will receive the highest level of learning benefits with the least disruption in social, cognitive and emotional benefits. Classes are normally 8-15 weeks long, depending on the location and day. Your teacher will figure out the remaining cost, including materials, for you to upgrade.

Please check www.kindermusikbylisa.com to read about the incredible long-term learning benefits that Kindermusik has to offer your child. NO OTHER early childhood program has licensed, background checked teachers who have both early childhood and musical experience and education, and NO OTHER early childhood program is endorsed by the prestigious Northwestern University and De Paul University Schools of Music as well as the Chicago Symphony Orchestra for their early childhood programs. More teachers, musicians AND parents choose Kindermusik over ANY other childhood program...for good reason. REGULAR, longer semester attendance over the course of several semesters enhances a child's language, math, creative, social, and emotional development, and the benefits carry on through preschool and elementary school when a child takes private music lessons after Kindermusik classes cease.

You may use your 5 weeks any time during regularly scheduled sessions OR during the following Groupon Customer classes. While you are using your 5 weeks, we highly recommend attending at least twice a month and weekly if possible, preferably at the same location, however, you may use the classes any way you please on any days or times and as many sessions per week as you like until they're exhausted. You MUST call or email Lisa Sadowski at 847 41 1481 or lisarichbrandon@sbcglobal.net FIRST before attending your first class to check on class time/day/location availability. Rarely, classes are full or cancelled and may not be attended, however, we almost always are able to accommodate your schedule and look forward to seeing you and your child in class!!

GROUPON CUSTOMERS OPEN CLASSES: You may choose 5 classes within the following time frames and locations, as long as the classes are not full or cancelled: Classes vary as to age range, anywhere from newborn through age 7 yrs old:
